

Cam-Lock Panel

- Insulated Metal Panels with Cam-Lock Fastener System (Kason Hardware)
- Coldmatic Panels meet National Building Code of Canada CAN/ULC-S138-06

WALL SYSTEM SPECIFICATIONS

Thickness	Wide Range from 3", 4", 5", 5.5" and up to 6"
Coverage	Up to 47"
Length	7' min to 30'. (Lengths over 30', please contact us)
Insulation	Polyisocyanurate PUR (Polyurethane)
R-Value	R8.35 per inch
Panel Joint	Cam Lock Fasteners permanently foamed in place
Gauges	Exterior: 14, 16, 18, 22, 24, 26 - Interior: 14, 16, 18, 22, 24, 26
Density	Overall in place density not less than 35.2 kg/m ³ / 2.2 P.C.F.
Finishes	White epoxy pre-painted finish on galvanized steel. Stainless Steel and Galvanized Aluminum.
